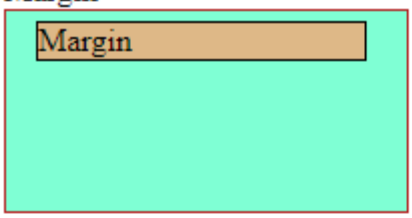
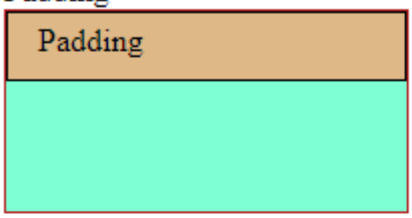
Margin



Margin :
Border 外框向外延伸

Padding



Padding :
Border 內框向內延伸

content-box

Lorem ipsum dolor sit, amet consectetur adipisicing elit. Delectus quidem ut cumque magnam magni dolores. Quibusdam nobis eos dolores quos molestiae tenetur earum suscipit deleniti. Porro vero.

Content-Box :
Padding 會把 Border 往外推

border-box

Lorem ipsum dolor sit, amet consectetur adipisicing elit. Delectus quidem ut cumque magnam magni dolores. Quibusdam nobis eos dolores quos molestiae tenetur earum suscipit deleniti. Porro vero.

Border-Box :
不管 Padding 怎麼推
Border 維持原樣

使用的 CSS：

```
<style>
    .box{
        background-color: aquamarine;
        width: 200px;
        height: 100px;
        border: 1px solid firebrick;
    }
    .margin{
        background-color: burlywood;
        border: 1px solid black;
        margin-top: 5px;
        margin-bottom: 10px;
        margin-left: 15px;
        margin-right: 20px;
    }
    .padding{
        background-color: burlywood;
        border: 1px solid black;
        padding-top: 5px;
        padding-bottom: 10px;
        padding-left: 15px;
        padding-right: 20px;
    }
    .content-box{
        width: 200px;
        height: 200px;
        border: 1px solid chocolate;
        padding-left: 50px;
    }
    .border-box{
        width: 200px;
        height: 200px;
        border: 1px solid chocolate;
        padding-left: 50px;
        box-sizing: border-box;
    }
</style>
```

使用的 HTML :

```
Margin<br>
<div class="box">
    <div class="margin">Margin</div>
</div>
Padding<br>
<div class="box">
    <div class="padding">Padding</div>
</div><br>
content-box
<p class="content-box">Lorem ipsum dolor sit, amet consectetur adipisi
border-box
<p class="border-box">Lorem ipsum dolor sit, amet consectetur adipisic
```
